SKILLS

- Front-end Development
- Back-end Development
- Problem-Solving
- Analytical Thinking
- AI paired Programing

TOOLS & TECHNOLOGIES

FRONT-END

- Next JS
- React JS
- Javascript
- TypeScript
- Tailwind CSS
- HTML

BACK-END

- Node.js
- Express.js
- Redis
- Mongo DB

OTHERS

- Git
- Postman
- Docker
- RabbitMQ

AI SKILLS

- MCP
- Langchain
- Agent harness
- Prompting
- RAG

PROFESSIONAL EXPERIENCE

Bizdom

Jun 2026 – Present

Software Enginner

- Building internal coding agents and harness to speed up development of enterprise applications.
- Working on agents that operate safely against sensitive private repos.
- Helping accelerate the SDLC using autonomous spec-to-code pipelines.

Klenty

Jan 2026 – April 2026

software developer intern

- Engineered a scalable sales engagement platform using React.js, Node.js, and MongoDB.
- Designed and implemented a microservices architecture leveraging RabbitMQ (AMQP), reducing inter-service latency by 20% and improving system reliability and fault tolerance.
- Integrated multiple CRM systems and third-party sales enrichment platforms, automating data workflows and increasing lead conversion efficiency by 10%.
- Incorporated Generative AI capabilities via multiple models using Portkey, enabling intelligent automation features and reducing manual effort by 50%.
- Utilized Zippy.ai for browser-level debugging and performance monitoring, decreasing frontend issue resolution time by 60%.

PROJECTS

INTERNAL CODING AGENT | Bizdom – (Typescript, Langchain, Vector DB , Bash)

- Developing internal coding agents and a supporting harness to streamline how enterprise applications get built.
- Contributing to agent tooling that runs securely against confidential private repositories.
- Supporting faster delivery cycles through autonomous spec-to-code workflows.

SALES ENGAGEMENT PLATFORM | klenty – (React.js, Node.js, MongoDB, RabbitMQ)

- Built a scalable sales engagement platform using React.js, Node.js, and MongoDB.
- Architected a microservices-based system with RabbitMQ (AMQP).
- Integrated CRM and enrichment platforms, improving lead conversion efficiency by 10%.
- Added AI-driven automation using generative models via Portkey, reducing manual effort by 50%.
- Improved debugging and monitoring workflows using Zippy.ai, decreasing issue resolution time by 60%.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science

Periyar Arts College,
Annamalai University

CGPA - 7.2

CERTIFICATIONS

- [Meta's advanced react certification by coursera](#)
- [Database Design and Basic SQL in PostgreSQL](#)
- [Certified as a Postman API Fundamentals Student Expert](#)
